

It has come to my attention that Sinclair Broadcasting is participating in electioneering during this critical just before Election Day. The Washington Post has written a fine article concerning this matter. Please do not let this kind of action continue. We are supposed to be setting an example for the whole world and clearly we are not. As the FCC you need to stand up and do your job. They own 62 stations and their licenses need to be pulled now. Thank you for your time and consideration
